PLASTICS TANKS AND  
ENVIRONMENTAL TECHNOLOGIES

## Turnkey and On-site Services

Forbes offers a full range of on-site services to suit all budgets from the simple offloading and positioning of tanks and equipment to a full project managed turnkey service.

Our fully trained and widely experienced sitework engineers are supported by dedicated managers who automatically produce risk assessments and method statements as an integral part of our services.

Our 'in house' chemical engineering and project management capabilities can design and manage small and medium sized projects from concept to commissioning.

We also offer ongoing inspection and maintenance services.

- Conceptual Design
- Process Design
- Engineering Design
- Manufacture
- Installation
- Commissioning
- Validation
- After Sales Support
